=====

BRIDGING THE GAP BETWEEN PROVIDERS & HOME-BOUND PATIENTS

M-Tee's Mobile Medical Services offers professional, order-based specimen collection, immediate point-of-care laboratory screenings, and dedicated support for direct care. We bring the clinic's expertise right into the patient's home.

 FOR CLINICS & PHYSICIANS: REDUCE MISSED LABS & ENSURE COMPLIANCE

When vulnerable, elderly, or immobile patients leave your clinic with a paper lab slip, compliance can decline due to transportation challenges. We help bridge that gap.

- ****100% Order-Based Model:**** We function solely as a collection utility, adhering strictly to your signed orders without diagnosing or altering care.
- ****Direct Lab Routing:**** All specimens are securely collected and delivered directly to your chosen pathology partner (LabCorp, Quest, or local hospital networks).
- ****On-Site Rapid POC Screenings:**** Receive immediate metrics sent to your clinic, including:
 - PT/INR (Coag PT@ System)
 - Hemoglobin/Hematocrit (Mission Hb)
 - Lipids & Glucose (Curo L5)
 - Kidney Tracking (Microalbumin 2-1)
 - Urinalysis Reagent Dipsticks
 - Acute Respiratory Panels (Flu/Strep/COVID)

 FOR BEHAVIORAL HEALTH TEAMS: RELIABLE ROUTINE SCREENINGS

We support group homes, recovery networks, and case managers with on-site, trauma-informed baseline tracking and compliance screenings.

- ****Instant Non-DOT Multi-Panel Drug Screens:**** Utilizing tamper-resistant Serenity Cups.
- ****On-Site Vital Sign Recording:**** Along with structured tracking logbooks.
- ****Limited Patient Transit Accommodations:**** Within their medical provider network.
- ****Thoroughly Vetted Staff:**** All personnel hold Level 1 Fingerprint Clearance & Article 9 training.

FOR FAMILIES: COMPANIONSHIP & DAILY LIVING SUPPORT (HAH)

We offer private pay and DDD-aligned Direct Support Professionals (DSPs) to assist with daily routines, respite, and specialized care.

- **Gentle Assistance:** With bathing, grooming, dressing, and mobility (ADLs).
- **Meal Preparation & Housekeeping:** Along with reliable medication reminders.
- **Specialized Support Structures:** For neurodivergent individuals and those with autism.

HOW TO PARTNER WITH US

1. **SEND THE ORDER:** Email your clinic order form to our secure portal.
2. **WE SCHEDULE:** Our mobile dispatch team will coordinate a home visit within 24 hours.
3. **DRAW & DELIVER:** Our certified team will complete the service and manage the transit.
